ABOUT ME

Computer Science and Engineering undergraduate at Daffodil International University, passionate about programming, problem-solving, and exploring cybersecurity. Currently developing a strong foundation in programming, networking, operating systems, and core CS concepts while continuously learning about cybersecurity and ethical hacking. With a strong interest in technology and security, my long-term goal is to build a career as a skilled cybersecurity professional.

EDUCATION

Daffodil International University

B.Sc. in Computer Science & Engineering

Department of CSE | 2nd Year, 2nd Semester | Expected Graduation: April 2029

SKILLS

Programming: C, Python, Java

CS & DSA: Data Structures, Algorithms, OOP, Problem Solving, Competitive Programming

Tools: VS Code, Code::Blocks, Git, GitHub

Fundamentals: Programming Fundamentals, Computer Fundamentals

FEATURED PROJECT

Task Scheduler

[C](#) | [DataStructures](#) | [LinkedList](#) | [Stack](#) | [Queue](#)

A C-based task scheduling system developed to organize tasks, manage task dependencies, and generate a valid execution order. Features a menu-driven interface with graph-based dependency management and Topological Sort using Kahn's Algorithm for scheduling and cycle detection

Key Features:

- Add and organize tasks
- Add and manage task dependencies
- View tasks and their dependencies
- Generate a valid task execution order
- Detect circular dependencies
- Intuitive menu-driven interface

ACHIEVEMENTS

%, UTA-Programming Contest

summer 2026 — DIU UTA programming contest. Preliminary Round: 78th position

%, Take-Off Programming Contest

Fall2025 — DIUProgrammingContest. PreliminaryRound: 29th Position. Final Round: 123th Position. Demonstrated algorithmic problem-solving under time pressure.

LEADERSHIP & EXPERIENCE

General Member - CPC Club

[Daffodil International University](#)

- Participated in coding sessions.
- Joined programming workshops.
- Participated in coding contests.
- Practiced problem-solving with peers.
- Collaborated in club activities.

General Member - Cybersecurity Club

[Daffodil International University](#)

- Participated in cybersecurity workshops.
- Joined security awareness sessions.
- Practiced basic cybersecurity concepts.
- Participated in CTF activities.
- Collaborated in club activities.

Active member - Care Club

[Tangail Volunteering Club](#)

- Participated in volunteer activities.
- Supported community initiatives.
- Assisted in charity events.
- Supported event-related activities
- Helped increase awareness of the club and its programs

COMPETITIVE PROGRAMMING

Toph: Oyishi_05

Beecrowd: 252-15-293

I enjoy competitive programming as a way to improve my problem-solving skills, algorithmic thinking, and ability to approach programming challenges efficiently. Every problem solved is a step toward becoming a better engineer.

LEARNING ROADMAP

Currently focusing on strengthening fundamentals through programming, projects, and continuous learning. Planned areas of focus:

- Cybersecurity Fundamentals
- Networking & Network Security
- Linux & System Security
- Ethical Hacking & Penetration Testing

CAREER GOAL

Build a strong career in cybersecurity by developing practical skills in network security, ethical hacking, penetration testing, and vulnerability assessment. Aspiring to become a skilled cybersecurity professional who can identify security threats, solve real-world security challenges, and contribute to building safer and more secure digital systems.

CERTIFICATES

- Digital Forensic Workshop.
 - Google Dorking Workshop.
 - Prompt Engineer - Technical Certification.
 - Prompting with Microsoft Copilot - Professional Certificate
 - AI + Prompt Engineer Level 1 - AI CERTs
-
